1. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor render obvious all the limitations of claims 1 and 16 with the particular attention to the provision of a plurality of cathodes where the cathodes are provided as different pressure dependency electrodes where each corresponding electrode has the specified means for controlling the gas diffusion. The reference JP 05-087773 disclosed a plurality of cathodes, but did not disclose (nor would it have been obvious to modify it with) the set forth means for controlling the gas diffusion.
